Bethel

At the Heart of Senior Living

About Bethel's Continuous Care & Daily Life

We offer around the clock holistic and clinical support for the body, mind and spirit at Bethel's Nursing & Rehabilitation Center.

Residents and families can have peace of mind knowing that Bethel's staff is on-hand to provide supervision and assistance at any time, for any reason.

A multi-disciplinary team of medical and health care professionals provide all levels of care, as well as nutritional guidance and social services support.

In addition, certified Recreation Therapeutic Specialists create fulfilling experiences to meet residents' social, emotional and physical needs.

When to Consider Continuous Care

Continuing Care is for those who are no longer independent and need ongoing assistance. For example:

- Adults who need help with their day to day activities such as bathing, dressing, eating, and medication management;
- Adults diagnosed with dementia/Alzheimer's Disease;
- Adults living with chronic diseases such as congestive heart failure, diabetes and asthma, among others.

Why Choose Bethel?

Bethel Nursing & Rehabilitation Center goes beyond the realm of services typically offered.

The center is certified to offer the renowned **Music and Memory Program**, designed by Dan Cohen, CMSW, to help reduce agitation among people diagnosed with Alzheimer's Disease and other behavioral diagnoses.

In addition, a Dementia grant enables specialized training for staff, while residents enjoy the benefits of a newly introduced, robotic pet companion program.

In addition, the 200-bed facility features private and semi-private rooms, a specialized dementia unit and a short-term rehabilitation unit. Bethel Nursing & Rehabilitation Center is easily accessible by major highways and public transportation.
