

# Cuddly & Caring & Cute! Oh My!

Want to give the purr-fect gift to  
a lonely, older person?

Scientists have long known that owning a pet can offer a variety of health benefits, from lowering blood pressure, cholesterol levels and feelings of loneliness, to boosting opportunities to exercise and socialize.

These lifelike animatronic cats are fun to hold and love. They have soft fur that gently vibrates when petted – eyes that open & close and a soft meow that responds to gentle scratches, hugs and gestures from the “owner”.

## WE INVITE YOU TO GET INVOLVED IN THIS WONDERFUL PROJECT

- EACH COMPANION PET IS \$99.
- IT CAN BE SHARED BY MULTIPLE DONORS
- EACH DONATION WILL RECEIVE A CERTIFICATE OF THANKS

To find out how to get started, call Lorrie Fetonti, Vice President for Community Relations
